BUBONIC PLAGUE.

HOW TO DESTROY RATS!!

BUBONIC PLAGUE is a Disease among Rats and Mice, and they being migrating animals the infection is carried from house to house. It matters not how perfect the Sanitary Arrangements may be, if Rats and Mice are permitted to remain about the Premises the disease can be contracted. The best safeguard is to destroy Rats and Mice.

NEWTON'S RAT CHEESE.

This is the only preparation ever compounded which will effectually rid your house of these pests, as well keep the premises free from them.

All that is necessary to do is to sprinkle the powder about where rats and mice frequent, inside the holes or between floors. The rats eat it and then seek the sewers for water, when death is produced.

With NEWTON'S RAT CHEESE it is not necessary to mix with any other substance to induce the animals to eat it, but sprinkle about according to directions, and the Rat Cheese does the rest.

The Rats will not die in the House after Eating NEWTON'S RAT CHEESE.

RATS AND MICE SPREAD DISEASES.

The fact has been scientifically established, that rats and mice not only carry Bubonic Plague, but also other infectious diseases, like Smallpox, Scarlet Fever, Diphtheria, etc. So the best protection against all such dangers is to keep rats and mice away from your house by using Newton's Rat Cheese. It is such a convenient article to use, no mixing with other substances is necessary.

See that you get the genuine NEWTON'S RAT CHEESE.

THE HABIT OF FINDING FAULT.

The habit of finding fault is disagreeable and contemptible. It is akin to the habit of saying sharp things about the little faults of other people. Both habits spring from conceit and both are inconsistent with the state of being a gentleman or gentleman.

Persons addicted to the vice of fault-finding distort the truth and cultivate a mental scrupulousness only to indulge their malicious inclination. They will poke their noses into the affairs of other people and then lie about what they have detected. They will pick flaws in the work of fellow-employees and complain to their employer, although they may be fully aware that the flaws are trivial and the complaints not only useless but hypocritical. They will impose an evil construction on the conduct of their friends and will judge a careless speech or an innocent thought, perhaps, thoughtless or as though it were a premeditated and deliberate attempt to give offense. They will go to the houses of people and repay hospitality with ridicule and backbiting. They will invite people to their homes and whisper mean remarks about their guests. They will repeat slanders without scruple, and they never doubt the truth of a story that is incredible to any one.

These fault-finders and backbiters are frequently warm-hearted and generous persons, who would not willingly do an injury, but who do not realize what extraordinary harm a sharp tongue can accomplish. They would help a poor family in distress and yet would circulate a lie about the beneficiaries of their charity. They practice the charity of the purse, but the public charity of the tongue and the mind is out of their province.

Subjects of this unpleasant habit suffer from more than do the targets of their ill-natured remarks. A malicious criticism estranges friends and makes enemies active. It lowers the author of it in the esteem of those who laugh with him. His auditors know that they will come in for similar unfair criticism, and they despise the man who entertains them, as it were, by maligning his absent friends.

Charity of thought is one of the finest qualities. It is a product of true greatness of soul, and it is also a valuable commercial asset, for it attracts the respect and friendship of men and women.—*Re.*

PROMPT ACTION

In dealing with what may be only a slight cough will often, avert some more serious illness.
